PROMOTING NONVIOLENCE EDUCATION ON CAMPUS—THE NEED OF THE HOUR FOR AMERICAN SCHOOLS
At what time when, our country is experiencing the challenges of violence based on race, ethnicity, nationality and gender; we believe that, as human beings, we all have the power to choose the possibility of hope, love, action and progress. Across every age, race, religion and region, we are united by common human values and aspirations that are much greater than our differences. The principles of nonviolence that were used to transform society by Mahatma Gandhi and Rev. Martin Luther King Jr. Seem even more relevant today to bring social justice, peace and harmony. During the 150th birth anniversary of Mahatma Gandhi, we invite you to join an interactive session on how to reinvigorate nonviolence and promote compassion in our schools.
