

# Mental health programs for students and families

Child and teen mental health is in crisis, with challenges like social media, identity exploration, bullying and safety concerns contributing to higher rates of anxiety and depression and declines in grades and extracurricular participation, making it critical for schools to provide meaningful support.

## Tailored solutions for K-12 schools and districts

CuraLinc helps families access high-quality mental health care and community resources quickly and at no cost. Through a family-systems approach, we holistically address the social, emotional and economic factors that influence a student's ability to thrive academically and emotionally, fostering healthier families and a more supportive school community.

### Core plan design

- **24/7/365 access to licensed mental health counselors** by phone or live chat for immediate support, guidance and advocacy
- **Desktop and mobile platform** with student-centric resources

### Enhanced plan design

All Core features, plus...

- **In-person or video counseling and coaching** from child and adolescent specialists
- **Virtual care modalities** including text therapy and digital group support
- **Life management resources** and referrals for finances, housing and other daily needs

### Organizational features

- ✓ Integration and collaboration with student services teams, school counselors and school psychologists
- ✓ Communication campaigns to engage families
- ✓ Expert consultation and guidance
- ✓ Crisis response services\*
- ✓ Customizable training modules\*

\*Available on a fee-for-service basis

Navigate**360**

The Leader in Holistic Safety

# Buyer's Guide: Preparation & Response Solutions

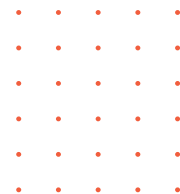

# Setting a Course for Zero Incidents

The Navigate360 Zero Incident Framework is a robust platform of training, services, and software developed to help schools implement effective safety, intervention, culture, and climate programs that bring them increasingly closer to a future of zero incidents.

At Navigate360 we are committed to leading a transformative movement in school safety, redefining the very concept of “safe” to encompass not only physical security, but also the emotional well-being of all people. Through a layered, holistic approach to student safety and well-being, we guide and empower our customers to reach their full potential through the creation of safe, engaging, and supportive environments.

# Preparation & Response Solutions

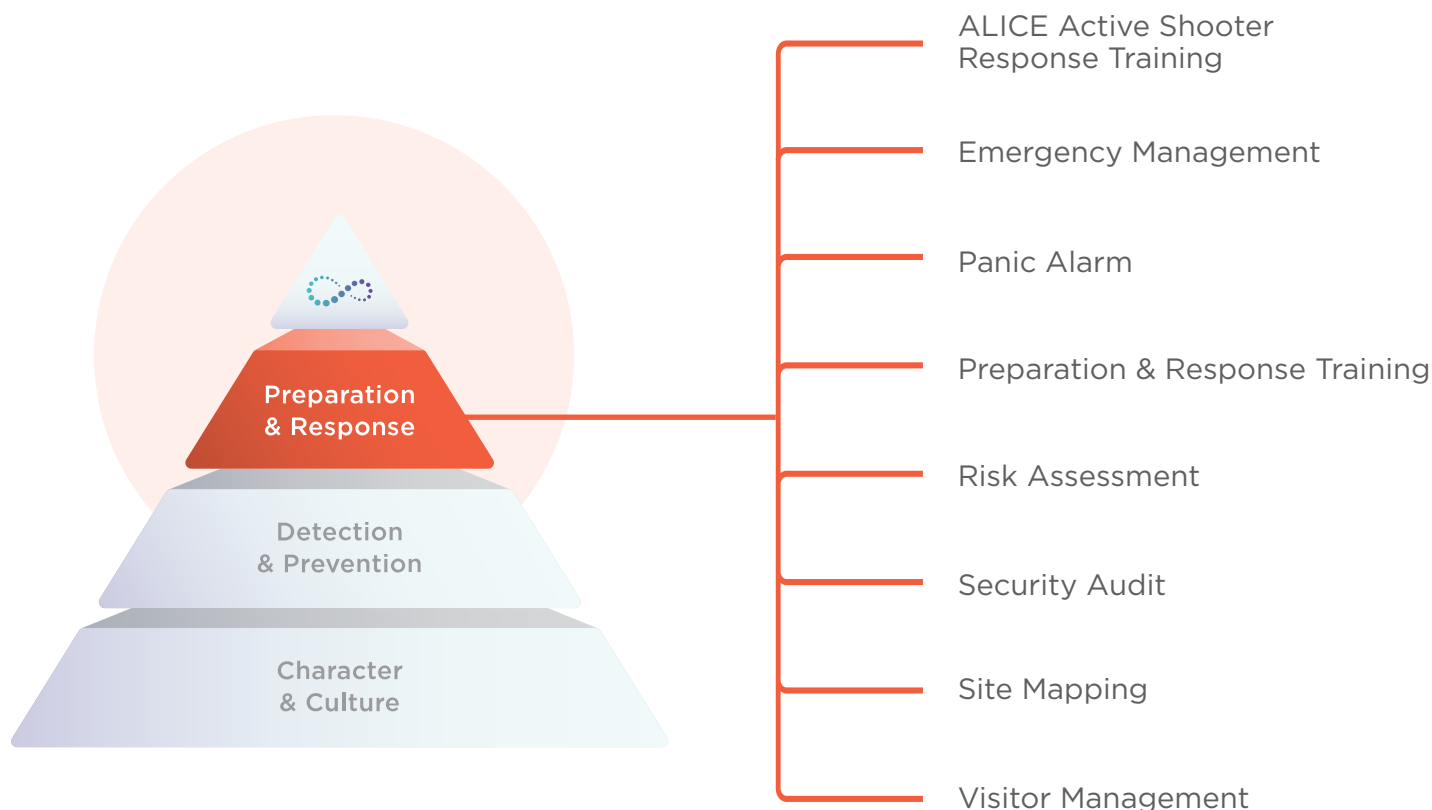

Protecting students' physical safety is a top priority for district leaders everywhere. Natural disasters, extreme weather conditions, and violent incidents are always top of mind when working to improve school safety, but preparing for and managing these risks is easier said than done. The mindset of "it can't happen here" is no longer an option. While some threats cannot be prevented, it's critical that districts do their best to prepare for and mitigate the damage from all incidents - and ultimately save lives.

Navigate360 Preparation & Response solutions empower districts to stay aware, connected, and prepared for any situation with comprehensive emergency and safety management solutions, services, and training.

Designed to enhance critical incident prevention, response, and recovery, our user-friendly products help you remain compliant, mitigate risks, and streamline and standardize your schools' emergency responses.

In this guide, explore each solution within our Preparation & Response suite and discover how Navigate360 can help you build a holistic approach to school safety and well-being.

# Navigate360 Emergency Management

Navigate360 Emergency Management (EM) stands as a comprehensive platform comprising of tools and resources designed to streamline the challenging process of K-12 emergency planning and management. With EM, users are equipped to maintain command over drills, active incidents, and reunification efforts, ensuring vital teams remain informed through a centralized, cloud-based user interface.

## Be Ready Before an Emergency

- Build, maintain, and disseminate Emergency Operation Plans (EOPs) to ensure compliance with local and state requirements
- Fulfill safety audit requirements and build your own assessment, response, and recovery checklists
- Complete seamless assignment, management, and reporting of ongoing drill practices and requirements
- Digitize traditional 3-ring binders to store and organize critical information in a secure, cloud-based, easy-to-find, single source of truth

With EM, officials are equipped to maintain command over drills, active incidents, and reunification efforts.

## Be Equipped to Respond During an Emergency

- Always know who to call in the event of an emergency
- Lead help to where it's needed most with digital access to floor plans during critical incidents for first responders and staff
- Easy access to all emergency procedures and protocols on any web-enabled device
- Real-time communication, alerts, and accountability of students and staff in an emergency

## Be Prepared to Manage Reunification After an Emergency

- Reunite students with their parents and approved guardians during high stress emergencies

### Save Time When It Matters Most with Panic Alarms

**Mobile Panic Button** - Accessible from device's locked screen to save time during an emergency.

**Computer Panic Button** - Easy installation on Windows, Chromebooks, and Mac desktop and tablet devices.

**Smartwatch Panic Button** - Notify first responders while on the go with accurate location information.

**Wearable & Wall-Mounted Panic Button** - Connect directly to Wi-Fi with no additional hardware required. Battery supports up to 1,000 activations.

*911Cellular's panic buttons were ranked #1 by a Florida Department of Education Selection Committee for Alyssa's Law compliance.*

# Holistic & Integrated Services

## Site Mapping

Navigate360's comprehensive site mapping service goes beyond simply charting the layout of school buildings. It details every aspect, from room configurations to the placement of life-saving equipment, and offers 360° views of each space, including storage areas and common zones.

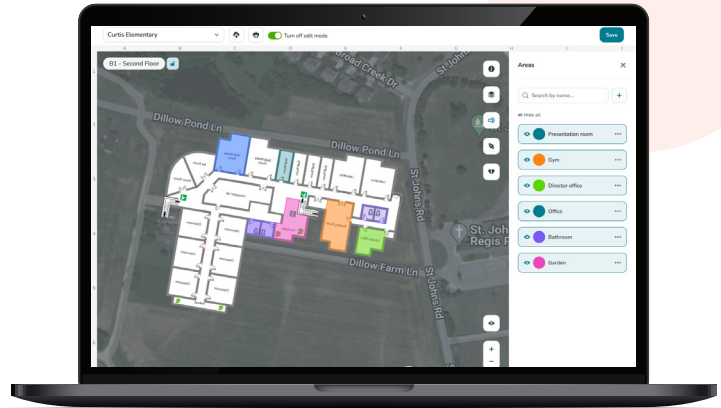

These interactive maps are invaluable during an emergency, providing first responders with clear directions to critical infrastructure points and safety equipment before they arrive on scene. By improving response times, clear and updated maps play a pivotal role in supporting first responders' mission to safeguard lives.

## School Security Audits

School security audits serve as essential tools for identifying areas in need of enhancement. Navigate360 offers a streamlined security audit tailored for districts in need of a cost-effective and efficient approach to pinpointing security vulnerabilities and enhancing safety for staff and students.

During the on-site audit, one of our team members will:

- Perform an efficient review focused on security features and procedures
- Identify basic gaps in safety measures
- Help you comply with state guidelines

## Layered Integrations

Navigate360 Emergency Management solution brings together 911Cellular's #1 ranked, Alyssa's Law compliant panic alert and communication systems and Critical Response Group's visual maps to coordinate emergency response both outside and inside a building. This integrated technology can enhance response time and improve command and control during an incident through common language and unified points of reference. A unique fusion of advanced and integrated technology offers real-time collaboration and visibility.

The result is a powerful communication tool that is instantly accessible by first responders through any smart device and proves invaluable in times when every second counts.

## Navigate360 Visitor Management

Navigate360 Visitor Management offers a holistic solution to promote safety, awareness, and accountability on campus. Equipping schools with real-time access monitoring, the ability to encourage community engagement without compromising security, and streamlined preauthorized access, Visitor Management empowers schools and organizations to maintain constant awareness of exactly who is on their campus.

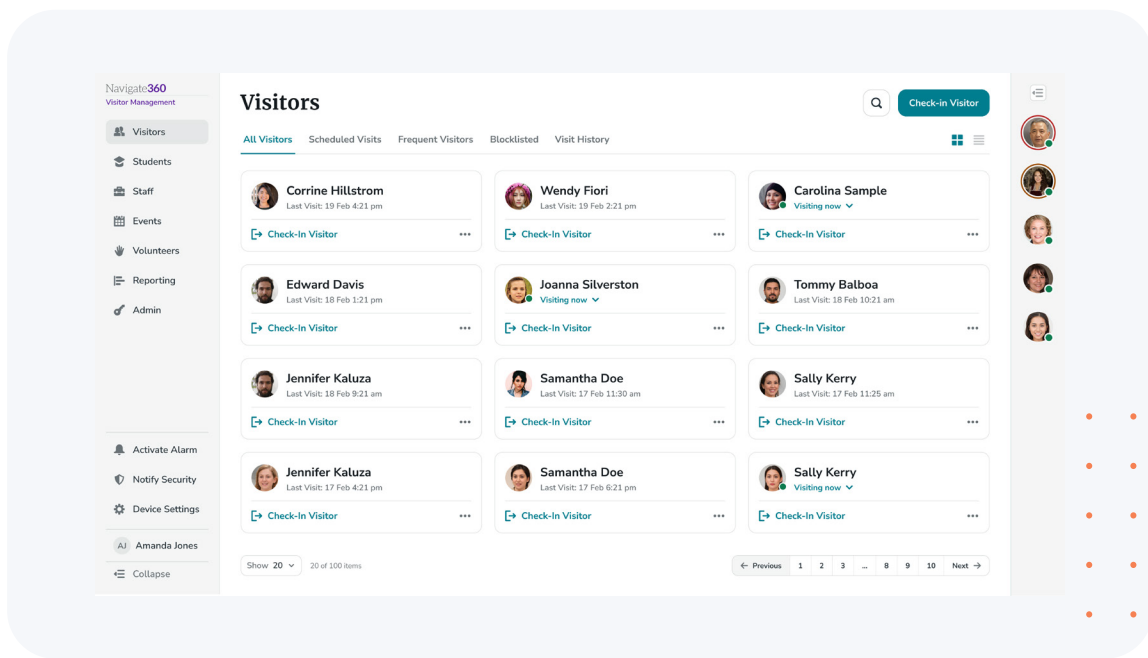

**Control Visitation:** Vet each visitor against custodial rights, block lists, and district regulations.

**Screen Every Visitor:** Perform national sex offender registry checks on every visitor with every visit.

**Notify Security Discreetly:** Flag persons of concern and discreetly notify security or necessary staff instantly.

**Simplify Check-ins:** Utilize self-serve and mobile check-in/out to speed visitor processing and badge printing for easy identification.

**Improve Efficiency:** Simplify volunteer and events processes with an online volunteer portal.

**Streamline Data Management:** Collect and maintain detailed profiles including personal information, preferred roles, and school preferences.

**Ensure Campus Safety:** Conduct optional criminal background checks on every volunteer.

**Maintain Records:** Track and record volunteer activities and hours.

**Enable Easy Identification:** Print visitor badges for easy identification.

**Provide Versatile Check-in Options:** Mitigate manual or fraudulent visitor entries with flexible check-in options including licenses, staff/student IDs, and RFID tags.

**Assess Details:** Review data on specific individuals and roles to gain valuable insights.

**Evaluate Metrics:** Easily view and compare data.

**Customize Parameters:** Analyze specific timelines with custom date ranges.

**Download Insights:** Export data in the preferred format for a deeper dive into visitor, staff, substitute, student, and volunteer data.

# ALICE Active Shooter Response Training

Navigate360 ALICE Training® is trauma-informed, age- and ability-appropriate and complies with the standard of care prescribed by leading federal preparedness and response organizations.

## There is no one-size-fits-all response to critical incidents.

Because every threat is unique, training in multiple response options is integral for ensuring survival. ALICE's options-based response training stands ready to adapt to any scenario, underscoring the importance of proactive responses over passive reactions. As the industry leader for active shooter response training since 2000, our team of ALICE National Trainers has trained millions of individuals in ALICE strategies, saving lives and enhancing safety across the nation.

**Alert:** Become aware of a threat to quickly recognize danger and ensure a speedy, optimal response.

**Lockdown:** Barricade entry points into the room and prepare for the next response strategy when evacuation is not an option.

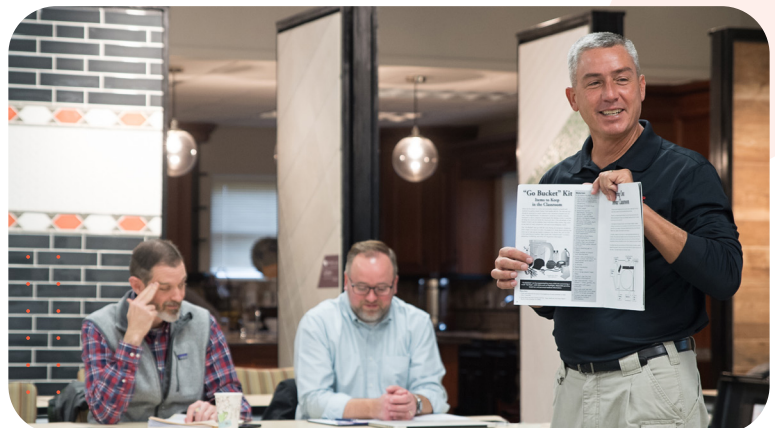

**Inform:** Communicate real-time information and identify the exact location of the threat using a PA system, 911 call, or another channel to provide an opportunity to escape.

**Counter:** Create a dynamic environment to foil the shooter's ability to harm with a strategy that includes creating noise, movement, distance, and distraction to lessen the chance of the shooter hitting a target.

**Evacuate:** When safe to do so, retreat to an area that is out of harm's way using many effective techniques for safe and strategic evacuations.

# Preparation & Response Training

On-demand eLearning helps staff recognize potentially volatile situations, respond calmly to high-stress incidents, and address the complex psychological and physiological impacts that can follow an emergency.

The following is a sample of some of the courses included in our Preparation & Response Training library.

## Building Safety Skills

Courses designed by experts to prepare your staff to respond to all types of emergencies. Some of the courses included:

- De-Escalation: How to Diffuse Aggression
- Emergency Bleeding Control Techniques
- How to Properly Call 9-1-1
- Recognizing & Responding to a Bomb Threat at School
- Responding to Fires & Explosions for Schools
- Situational Awareness for K-12

## A Focus on Well-Being

Expert-designed courses that prepare your staff to recognize and address concerning behaviors and incidents. Some of the courses included:

- Extreme Stress Survival
- Opioid & Addiction Awareness
- Understanding Bullying
- Understanding Drug Use & Addiction
- Understanding Suicide Awareness & Prevention
- Understanding Vaping

Experience the peace of mind that comes with knowing your school staff is well-prepared to respond to incidents, acts of violence, and high-stress emergencies.

## Navigate360 Risk Assessment

Navigate360 Risk Assessments identify gaps in safety and put school leaders in a position to proactively create a culture of safety for students and staff. Schools that partner with Navigate360 benefit from the expertise of highly experienced and credentialed risk assessors who will be on-site to:

- Review current safety and security policies
- Assess physical security risks, inside and out
- Evaluate insurance and training records
- Interview staff members to gain a better understanding of the human risk element
- Collaborate with school administration to align budgets and prioritize necessary updates
- Provide an all-encompassing report of the school's preparedness against various security and safety threats

Navigate360's risk assessors are ASIS Physical Security Professional® (PSP) certified experts who leverage their unique expertise to provide hands-on guidance to schools and other organizations. Instead of simply pointing out flaws and checking boxes, our team partners with school leaders and security teams to suggest tangible ways to mitigate risk and close security gaps. Our team offers state-specific assessment requirements and recommendations from several risk assessment authorities including FEMA, NIMS, NFPA, CPTED, and DHS.

# A Layered, Holistic Approach to Safety

The evolving ecosystem of the Navigate360 Preparation & Response solutions will help you stay ahead of safety expectations with a prepared and engaged staff and student population. Don't wait to connect your school community with the software, services, and expert training necessary to prepare for and respond to acts of violence and high-stress emergencies.

# Rhombus for Education

Create a safe and secure environment for students and staff. Rhombus simplifies security with a seamless experience on a single pane of glass while allowing you to personalize a solution - on a secure and open data platform - for needs that matter to you the most.

**Campus-wide visibility**  
with powerful &  
reliable performance

**Proactive threat detection** with 24/7  
real-time alerts

**User-friendly management** on  
a unified platform

**Rapid incident resolution** with smart  
investigative tools

## Unified Experience

Suite of cloud cameras, access control, environmental sensors, and alarm monitoring powered by AI analytics and a flexible rules engine from a single pane of glass.

## Open and Flexible Platform

Build the platform that works best for you with access control integrations, turnkey technology partners, and the most open API to integrate into your existing systems.

## Safe and Efficient Campuses

Enable effective action to deliver student and staff safety with actionable insights and indisputable video evidence.

## Future-Proof Your School Security

Drive outcomes that matter most to your institution with a customizable and open platform to meet your unique needs and workflows.

# Keep Students, Staff, and Facilities Safe with Key Features

## Monitor

- Suite of cloud cameras, environmental sensors, access control, alarm monitoring, and integrations
- Streamlined security operation in a single pane of glass
- Secure and customizable user and role management

## Detect

- License plate detection for unrecognized cars and tailgating
- Human detection, vehicle detection, and a flexible rules to quickly search for vandalism and trespassing
- Region and color search for confirming suspicious activity

## Respond

- Alarm Monitoring to verify threats and dispatch emergency services
- Automated audio deterrence with flexible rules engine
- Configurable alerts to notify community managers
- Instant video retrieval and sharing

## A Trusted Partner for the Long Term

### Secure, Cloud-Managed Platform

Gain the freedom to manage security anytime, anywhere, on any device. Leverage powerful AI technology and improve visibility at scale with no DVR/NVRs or servers.

### Modern Enterprise Management

Streamline operations by unifying security on a flexible platform. Create custom roles and manage unlimited locations, devices, and users from a single pane of glass.

### A Solution You Can Trust

Never worry about cybersecurity or data privacy with Rhombus' secure-by-default platform, automatic firmware updates, and pristine track record.

## Trusted by School Leaders

## The power to choose what keeps you safe.

Learn how Rhombus can help keep your schools safe and become your partner in security. Try the platform for free today.
